BUILDING OPERATIONSSOUTH AUSTRALIAJUNE QUARTER 1963SCOPE

This bulletin gives information about "new building" operations in South Australia; in addition to a summary for the period July 1958 to June 1963 it shows details concerning houses and flats, other buildings, employment in the industry, and dwellings in Local Government areas. The information has been compiled from returns collected from all builders of "new buildings".

DEFINITIONS

NEW BUILDINGS: Additions of £5,000 and over to existing buildings (other than houses) are included, but minor additions, alterations, repairs and renovations, and all construction activity such as railways, bridges, earthworks, water storage, etc., are excluded.

VALUE: All values shown exclude the value of land and, except for Table 4, represent the value of buildings upon completion (but see also **COMPLETIONS**). The values shown in Table 4 represent the value of work done on new buildings during the period.

COMMENCEMENTS: A building is recorded as commenced when work on the foundations has begun.

UNDER CONSTRUCTION: Once commenced, even though work on it may have been temporarily suspended, a building is classified as "under construction" until its "completion".

COMPLETIONS: A building is regarded as having been completed when the contractor has fulfilled the terms of the contract or in the case of an owner-built house when the dwelling is either completed or occupied (whichever occurs first). However, the value in all cases is that of the building as a finished project as planned.

COMMENTS

Table 1 shows that 2,379 houses were commenced and 2,579 completed during June quarter 1963, an increase of 79 commencements and 366 completions on figures for the previous quarter. During the twelve months ended June 1963, 9,610 houses were commenced and 9,646 were completed, an increase of 881 commencements and 510 completions on figures for the twelve months ended June 1962.

The considerable fluctuations from period to period in the value of "new buildings other than dwellings" in Table 3 are partly the result of the unequal incidence of individual large contracts. Table 4, which shows the value of work done on the various types of new buildings during each period, is not subject to these fluctuations.

For the second successive quarter there was a decrease in the number recorded as employed on all jobs of builders of new buildings (Table 6). The total of 12,948 at 28th June 1963 was 390 less than at 29th March 1963 but 602 more than at 29th June 1962.

As shown in Table 7 a large proportion of home building is concentrated within a few local government areas. During the twelve months ended 30th June last 3,776 (72.6 per cent) of dwellings completed in metropolitan local government areas were in the Municipal Corporations of Campbelltown, Enfield, Marion, Mitcham, West Torrens, and Woodville; of dwellings completed outside the metropolitan area 62.8 per cent were in the near metropolitan District Councils of Munno Para, Noarlunga, Salisbury, and Tea Tree Gully.

- (a) An "owner-built" house is one actually erected or being erected by the owner or under the owner's direction by sub-contract or day-labour but without the services of a contractor who is responsible for the whole job.
- (b) Of the 8,966 brick, stone, etc. houses COMMENCED during 1962-63 (8,575 contract-built and 391 owner-built) 1,052 were of brick veneer and stone veneer construction valued at £3,278,000. During June quarter 1963 there were 293 houses of this type commenced with a value of £932,000.
- (c) "Other" houses are mainly of fibro-cement or weatherboard construction, e.g. included in the 644 "other" type houses COMMENCED during 1962-63 (555 contract-built and 89 owner-built) 595 were of fibro-cement construction valued at £1,601,000 and 46 of weatherboard with a value of £147,000. During June quarter 1963 there were 122 (£312,000) fibro-cement and 12 (£39,000) weatherboard houses commenced.

Other	2,319	2,312	2,101	2,274	2,242	2,475	2,513	2,345
Total	13,306	12,416	11,954	12,346	12,834	13,442	13,338	12,948

(a) Covers all contractors and sub-contractors and employees of contractors, sub-contractors, and Government instrumentalities, who on the day specified were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs, and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.
